

EASTERN REGIONAL CONFERENCE OF HOMOPHILE ORGANIZATIONS

Dear Sir;

The Eastern Regional Conference of Homophile Organizations is an association of independent groups working to improve the status of homosexuals in our society.

Approximately fifteen million adult Americans, men and women are homosexual. This means that an estimated 10% of your present and prospective employees are homosexual. It is in the best interests of both employer and employee to make full use of the homosexual's personal and professional capabilities.

We are interested in ascertaining whether or not the homosexual is granted full employment opportunities. Therefore, we are sending this questionnaire to major employers, businesses and institutions, on the East Coast. Your responses will be appreciated and will be given careful consideration.

Please return the completed questionnaire in the enclosed envelope. Thank you for your cooperation.
